MEMORANDUM FOR: 

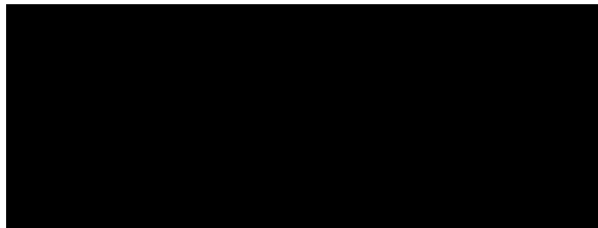

SUBJECT : Additional Information Regarding Microfilm Systems  
for the Past Six Months

1. During the last six months 6 microfilm systems have been established and are operating. This has permitted the destruction of 58 cu. ft. of records. The average accumulation per year for these files in hard copy was 566 cu. ft.

2. There are 19 systems that are in the testing, developing, and/or awaiting the delivery of cameras. These files would show an annual growth of 418 cu. ft.

3. There are 4 files that will be COM applications in the near future.
